

How to Install TeleNav

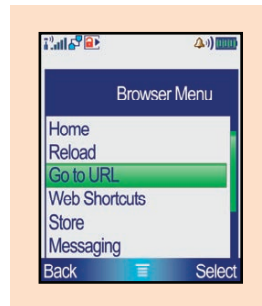

1
1. Press the Menu key directly above the up arrow on the 4-way navigation key.

2
2. Highlight "MEdia Net", the globe-shaped icon, and press "Select" (the key on the right side, just below the bottom of the screen). Wait while the browser launches and connects.

3
3. Press the Menu key again. On the next page, scroll down to "Go to URL", and press "Select".

4
4. Enter the following URL: "ota.telenav.com/ota/tn", and press "OK".

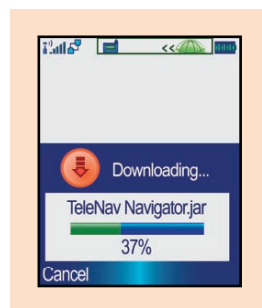

5
5. The browser will contact the TeleNav OTA loader, and then the Details screen will appear. To continue, press "Download".

6
6. The browser will display a Certificate screen showing information provided by Cingular. Select "Install" to begin loading TeleNav onto your phone.*

7
7. Allow the application to download and install.

8
8. When asked if you want to run TeleNav Navigator, select "YES".

Questions? Please call 1-866-4CWS-B2B

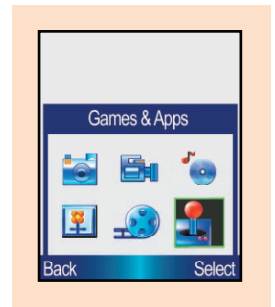

* If given the option to install TeleNav Navigator onto your phone's Card or to the Phone itself, Installation to your Phone is suggested. TeleNav is easier to load later when installed onto your Phone.

Starting TeleNav

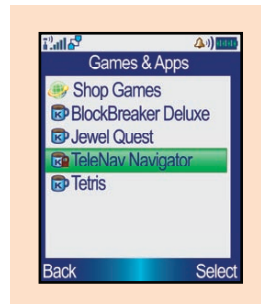

1. Press the Menu key. On the Menu page, highlight "MyStuff", and press "Select".

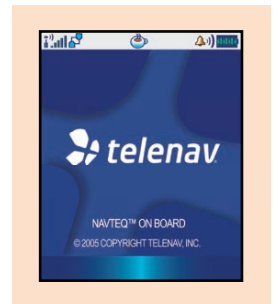

2. On the next page, highlight "Games and Apps" in the lower right corner, and press "Select".

3. Depending on where you downloaded TeleNav:
a) Phone – Highlight "TeleNav Navigator" and press "Select".
b) Card – Press the Menu key, highlight "Switch Storage Device", and press "Select". Then highlight "Card", and press "Select". Highlight "TeleNav Navigator" and press "Select".

4. After you press "Select", TeleNav will launch and present its splash screen.

Logging In

1. To log in, enter your phone number and a 4-digit PIN of your choosing. If this log in is recognized as being associated with a provisioned account, you will not need to log in again. Otherwise, your log in will be rejected. This same log in can be used at www.telenav.com to preplan trips, and establish your profile.

2. When asked if you want to "Use Data Network", navigate to "Yes. Always Grant Access" and click the center of your phones navigation tool to select the radio button.

IMPORTANT: Your browser will automatically default to "Yes, Always Ask" so be sure you've navigated to the correct setting.
