

Quick-Start Guide for T-Mobile – J2ME Phones Sony-Ericsson TM506 and Nokia Cooper 3711

Running TeleNav GPS Navigator v5.2

TeleNav GPS Navigator is pre-installed on your phone and comes with a 14-day trial subscription.

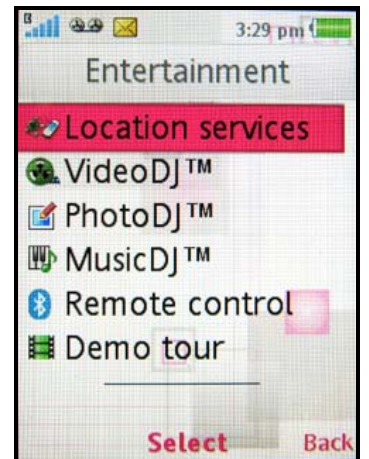

1. To launch the application, press the **OK** button to open the device menu.

4. After TeleNav GPS Navigator starts, the splash screen appears for a few seconds.

The next screen will collect your login information.

5. Type in your first and last name. The application will automatically obtain your phone number from the phone.
6. Press the **GO** softkey or highlight “**Done**” and press the **OK** button. The system will create your new account immediately.

NOTE: You will not be asked for a PIN code. The application will automatically use the last 4 digits of your phone number as your default PIN code. If you want to change your PIN code, simply login to your **My TeleNav** page at: <http://www.telenav.com>

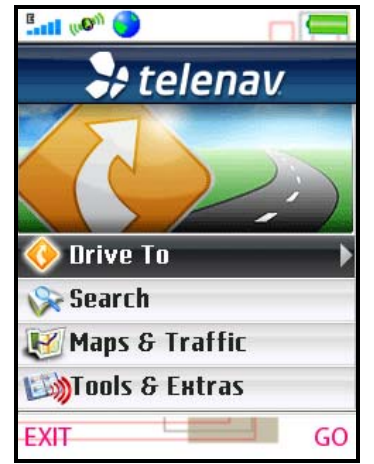

7. This next screen presents a warning for usage safety. If you agree to the conditions, press the **GO** softkey.

8. You will next come to the TeleNav GPS Navigator Main Menu. You can now select the feature you would like to use.

Recommended Upgrade

After launching TeleNav GPS Navigator the first time, an SMS text message may be sent to your phone, instructing you to install an updated version of the application. This will only occur if TeleNav GPS Navigator is older than **Version 5.2.8, Build 1044**.

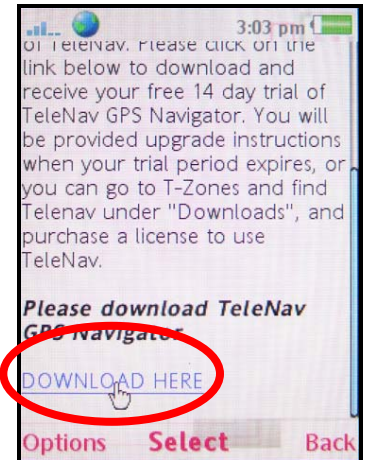

NOTE: The link displayed in the SMS message will only work in your phone's WAP browser.

1. Highlight the download link on the screen and press **Open**.

2. The upgrade splash screen will appear. Use the navigation key to move down the page until the cursor is over "Download Here."
3. Press **Select** and you will then be taken to the download page.

4. Use the navigation key to highlight "Download" and press **Select**.
5. If you are prompted to replace the existing TeleNav GPS Navigator application, you should press **Yes** to continue.
6. Your phone will now download and install the latest version of TeleNav GPS Navigator.

Even if you do not receive this message, we recommend that you check which version of TeleNav GPS Navigator is installed. To do this:

1. Launch TeleNav GPS Navigator
2. Go to Tools & Extras >> About >> About TeleNav Navigator

The version number will now be displayed. If it is older than Version 5.2.8, Build 1044, then you should upgrade it. Please call TeleNav Customer Support at: **1-888-353-6284** for assistance.

14-Day Trial and Subscription Service

As a first-time customer, you can use TeleNav GPS Navigator for free during the 14-day trial period.

When you launch the application for the first time, you should see a message during the login process that explains the free trial.

2 days before the end of the 14-day trial, an SMS message will be sent to your phone, prompting you to subscribe to continue using the service.
